

Course Codes, Tuition, and Dates

Individually Paced Courses

Students may enroll at any time of year, and choose 3, 6, or 9 month enrollment periods. The choice depends on the student's goals; course descriptions list typical durations for each course. Students who complete a course with seven or more business days remaining in their enrollment may be advanced to a new individually paced course to finish out their enrollment period. Students who have not completed a course when enrollment time ends may pay to re-enroll for one or more months.
