

Math Practice Items:

The questions in this part measure how well you work with numbers.

Each question has two parts. One part is in Column A. The other part is in Column B.

You must find out if one part is greater than the other, or if the parts are equal. You will choose one answer.

- A. if the part in column A is greater.
- B. if the part in column B is greater.
- C. if the two parts are equal.

Try the example below now:

Column A

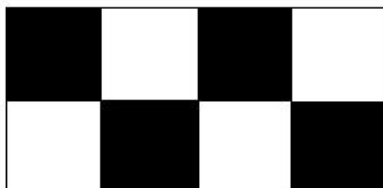

one

Column B

five

- A. Column A is greater.
- B. Column B is greater.
- C. The two parts are equal.

Now try this example:

Column A

Number of white squares
above

Column B

Number of black squares
above

- A. Column A is greater.
- B. Column B is greater.
- C. The two parts are equal.

Now try this example:

Column A

3

Column B

3 - 3

- A. Column A is greater.
- B. Column B is greater.
- C. The two parts are equal.
